Schedule H, Part III, Line 8 Community benefit & methodology for determining medicare costs	IF EDWARD HOSPITAL DISCONTINUED UNPROFITABLE SERVICES, IT WOULD BECOME THE RESPONSIBILITY OF ANOTHER PROVIDER OR THE GOVERNMENT TO CARE FOR THE MEDICARE PATIENT POPULATION. THIS WOULD, ULTIMATELY, RESULT IN ACCESS ISSUES AND NEGATIVELY IMPACT QUALITY OF CARE AND HEALTH OUTCOMES. THEREFORE THE SHORTFALL INCURRED BY CONTINUING TO PROVIDE THESE SERVICES IS CONSIDERED A COMMUNITY BENEFIT. A COST-TO-CHARGE RATIO WAS USED TO DETERMINE THE REPORTED AMOUNT.

Before receiving a bill, patients without insurance coverage will receive a letter informing them of our financial assistance program and the option of payment plans. If a patient is approved for financial assistance, the patient's accounts are discounted by the % approved. In cases where a balance remains, normal collection practices are followed.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part VI, Line 2 Needs assessment	PLANNING FOR COMMUNITY BENEFITS IS AN INTEGRAL PART OF THE EDWARD-ELMHURST HEALTH STRATEGIC PLANNING PROCESS, WHICH FOLLOWS A THREE-YEAR CYCLE WITH INTERIM ANNUAL REVIEWS AND UPDATES. INTERIM REVIEWS OCCUR QUARTERLY AND UPDATES ARE MADE BASED ON THE RECOMMENDATIONS OF THE EEH SYSTEM COMMUNITY BENEFIT STEERING COMMITTEE. The Committee is tasked to assess community need, establish priorities and supporting initiatives, and monitor outcomes to ensure initiatives are consistent with its mission to advance the health of the community served. RECOMMENDATIONS FROM THE EEH COMMUNITY BENEFIT STEERING COMMITTEE ARE BASED ON REVIEW OF ORGANIZATIONAL PRIORITIES, STRATEGIC DIRECTION, PROGRAM DEVELOPMENT, AND PERFORMANCE OUTCOMES. Edward Elmhurst Health (EEH) collaborated with DuPage and Will Counties in the development of the counties' most recent CHNAs and implementation strategies and ultimately incorporated these CHNAs into a joint EEH CHNA report. THE FINDINGS ARE DERIVED FROM COMMUNITY DEMOGRAPHICS INCLUDING SOCIAL DETERMINANTS OF HEALTH, ANALYSIS OF GENERAL HEALTH STATUS INCLUDING DEATH, DISEASE, INFECTIOUS DISEASE AND CHRONIC CONDITIONS, AND MODIFIABLE HEALTH RISKS. THE PROCESS BRINGS TOGETHER THE ABOVE OUTLINED INFORMATION, PUBLIC HEALTH STATISTICS AND INPUT FROM REPRESENTATIVES FROM THE COMMUNITY, INCLUDING PATIENTS AND PROVIDER AGENCIES. THE OVERARCHING GOAL OF THIS PROCESS IS TO UNDERSTAND THE ESSENTIAL HEALTH ISSUES IN THE COMMUNITY IN ORDER TO ENSURE ORGANIZATIONAL RESPONSIVENESS AND APPROPRIATE PRIORITIZATION OF RESOURCES. In addition, in the Spring of 2019, EEH sponsored a series of internal and community stakeholder forums, known as Healthy Driven Communities, to review County-specific CHNA information and establish recommendations for the joint CHNA and Implementation Strategy for EEH. Throughout this process, forum participants, which included representation from county health departments and medically underserved, low-income, and minority populations, prioritized issues and opportunities based on an assessment of: * Overlap between DuPage and Will Counties: The fact that a health need was identified in both the DuPage and Will County CHNAs as an area of opportunity * Magnitude: the size of the population affected and the degree of variance from benchmarks and trends * Impact/Seriousness: the degree to which the issue affects or exacerbates other quality of life and health-related issues * Feasibility: the ability for EEH to reasonably impact the issue given available resources * Consequences of inaction: the risk of not addressing the problem at the earliest opportunity The process outlined above allowed for the completion of the 3-YR COMMUNITY HEALTH NEEDS ASSESSMENT IN COMPLIANCE WITH FEDERAL REGULATION (FY2020-FY2022 PLAN).

FOR UNINSURED PATIENTS THE STATEMENT REFLECTS ANY DISCOUNTS THE PATIENT WAS ELIGIBLE FOR UNDER OUR FINANCIAL ASSISTANCE POLICY. EEH continues its partnership with Change Healthcare with the goal to provide under- and uninsured patients with insurance coverage through various Medicaid programs. The service is offered to patients receiving care as an inpatient, in the emergency department and in various outpatient departments, and is tailored to guide the patient through a complex application process for applicable federal, state, and community benefit programs.

Form and Line Reference	Explanation
Schedule H, Part VI, Line 5 Promotion of community health	The majority of EEH's governing body is comprised of persons who reside in the primary service area and are neither employees nor independent contractors of the organization, nor family members thereof. The organization extends medical staff privileges to all qualified physicians in its community for all departments. As a Not-For-Profit Organization, EEH re-invests earnings in the organization to maintain and enhance services that benefit the community served by the hospitals. The organization develops and updates a strategic plan on a regular basis to identify needs and opportunities to deploy excess funds (revenue in excess of expenditures). Projects are evaluated based on organizational objectives and community needs, and are prioritized by senior management and the board of trustees. Edward-Elmhurst Health actively promotes the health of its community by integrating community benefit planning into its strategic planning process, which ensures resources are allocated to supporting activities. Examples of efforts are reflected below: EEH also promotes the health of its community by participating in a range of committees, coalitions, panels, advisory groups, commissions, and boards. In addition, members of senior management participate in coalitions to strengthen partnerships with other organizations for the development of programs for the health of the community. An example is Will County Mobilizing for Action through Planning and Partnerships (MAPP), which represents a unique partnership of hospitals, physicians, local government, human services agencies and community groups working together locally to address the national healthcare crisis. Another example is a statewide coalition focused on obesity prevention, Illinois Alliance to Prevent Obesity which drives legislative change to combat obesity and promote equity in health outcomes. EEH actively engages with local and national non-profit partners to advance health equity, with a premier example being the American Heart Association. EEH staff organize a walk every year with hundreds of community participants in cooperation with the AHA to fundraise for the organization. We also actively participate in their Health Equity Task Force, where we learn and share best practices to advance health equity along with guiding the advocacy efforts for the organization to advance health equity in the region. As a not-for-profit, community-based healthcare system, Edward-Elmhurst Health (EEH) applies surplus funds to a number of initiatives aimed at providing enhanced patient care to the residents of the communities served, including but not limited to improvements in facilities and equipment, patient care, medical training, and education. On an annual basis, the EEH Board of Trustees and EEH Finance Committee approve a capital budget as presented by EEH management. The annual capital expenditures are designed to fund the facility and equipment requirements of various strategic patient-care initiatives, as well as to replace or modernize existing equipment. The annual budget is set based on the operational needs of the organization to provide patient care, taking into account available surplus funds. EEH's senior executive leadership team regularly evaluate opportunities to invest in improved patient care across the system, as well as medical training/education across employees. In August 2021, the EEH Board of Trustees approved the establishment of a Community Investment Program (the "Program"), to be funded by an investment of \$100 million. The purpose of the Program is to establish EEH as a community anchor institution committed to partnering with organizations to meaningfully advance the health and well-being of the communities it serves. Community Education is provided free of charge to the community at large with the aim of promoting wellness, enhancing understanding of disease prevention and management to minimize related complications and improve quality of life. Monthly webinars, presented by primary care physicians, specialists, dietitians and advanced practice clinicians are provided free of charge to promote prevention, awareness, education and overall wellness. These programs reach an average of 150 participants per program. Key health areas include nutrition, fitness, diabetes, cardiology, cancer prevention, arthritis, pain management, sleep and integrative medicine. The hospital system also funds access to an application/database of area resources for "in need" individuals and families call "Find Help". Finally, we partner with area non-profits to encourage physical activity through our newly created annual "Take a Hike! Challenge". The system provides the coordination and structure of the program as well as an award incentive for participants, which takes place for 8 weeks in the Fall. Participation in this year's event was over 1,300. Additional community education is provided through a vast database of online education, primarily in the form of blo

EEH provides a speakers bureau, free of charge, to a wide array of community organiz ations including senior centers, churches, cultural organizations, school STEM programs, l iving communities, newcomers organizations, libraries and school districts throughout the year. The ED participates in a large Road to Reality program with Plainfield School Distri ct that is a re-enactment of a drinking and driving accident scene. Schedule H, Part V, Section B, Line 5 Facility A, 1	Facility A, 1 - Edward Hospital. Beginning in the Spring of 2016 (Will County) and Winter 2018 (DuPage County), EEH collaborated with Will and DuPage Counties in the development of their most recent CHNAs and implementation strategies; ultimately EEH incorporated these CHNAs into its FY20-FY22 joint CHNA report. County-specific CHNAs for Will and DuPage counties were developed through "Mobilizing for Action through Planning and Partnerships" (MAP P) collaborative forums, which allowed for each county, along with community leaders, to identify and prioritize the most pressing health issues within the region. This approach included comprehensive, cross-sector input to ensure creation of county plans that are relevant and responsive to community need, incorporating defined goals and initiatives. The framework incorporated the following qualitative and quantitative collection methods: * Community Themes and Strengths Assessment: a community survey distributed to residents in which feedback is requested about the health of the county. The survey is often used by public health systems to evaluate community health by answering questions such as: What is important to our community? How is quality of life perceived in our community? What assets do we have that can be used to improve community health? * Local Public Health Assessment: focused on community stakeholder input to assess how well the system works together to provide the 10 Essential Public Health Services. The Assessment is designed to answer two key questions, "What are the components, activities, competencies, and capacities of our local service provider system?" and "How are the 10 Essential Services being provided to our community?" * Community Health Status Assessment: presents quantitative data about each respective county. The information is designed to give a thorough snapshot of the current health status. * Forces of Change Assessment: aims to solicit wide-ranging input from community leaders to identify forces such as trends, factors or events that influence the health of the community. The goal is to better understand the current state in an effort to influence the outcomes of the future. The DuPage County CHNA was conducted from January - June 2018 and finalized in December of 2018. The process was led by the DuPage County Department of Community Services, a designated Community Action Agency that works to empower people with needs in DuPage County to become self-sufficient and lead enriched, productive lives, and Impact DuPage, a collective impact partnership, primarily comprised of community leaders from health and human service sectors throughout DuPage County. EEH participated in the conduct of the DuPage County CHNA, along with the DuPage County Health Department and numerous organizations serving and representing the interests of medically underserved, low-income and minority populations. Participants for eac h County can be made available upon request to the Will County MAPP Collaborative. EEH and EH participated in the conduct of the Will County CHNA, along with the Will County Health Department and numerous organizations serving and representing the interests of medically underserved, low-income and minority populations. The process and methods used to conduct this CHNA and a description of the participants and input provided is contained in the Wi ll County CHNA report. After collaborating with DuPage and Will Counties in the developmen t of the counties' three year CHNAs and Implementation Strategies (with involvement rangin g from participation on executive steering committees to local public health assessments) and identifying the areas of overlap between the areas of opportunity identified in the Du Page and Will County CHNAs, EEH engaged in a process to further inform prioritization of i ts strategic priorities for the FY20-22 implementation strategy. This process involved int ernal and external (community) stakeholders participating in a series of forums. FORUM PAR TICIPANTS INCLUDED REPRESENTATION FROM COUNTY HEALTH DEPARTMENTS AND MEDICALLY UNDERSERVED , LOW-INCOME, AND MINORITY POPULATIONS. These forums were designed to review area demograp hics and Will and DuPage County CHNA findings and implementation strategies, finalize the selection of significant health needs for this FY 2019 joint CHNA report, prioritize these health needs, and identify resources potentially available to address those health needs. IN THE SPRING OF 2019, EEH SPONSORED A SERIES OF INTERNAL AND COMMUNITY STAKEHOLDER FORUM S, KNOWN AS HEALTHY DRIVEN COMMUNITIES, TO REVIEW COUNTY-SPECIFIC CHNA INFORMATION AND EST ABLISH RECOMMENDATIONS FOR THE JOINT CHNA AND IMPLEMENTATION STRATEGY FOR EEH. For more in formation regarding the dates these meetings were held and the participants, please see th e CHNA.

Schedule H, Part V, Section B, Line 11 Facility A, 1	Facility A, 1 - Edward Hospital. The FY2019 EEH CHNA findings, supported by findings and p riorities of DuPage and Will County CHNAs health assessments, were considered by the EEH C ommunity Benefit Steering Committee in finalizing priorities for action over the next thre e years (FY20-22). Criteria considered in prioritization included: * Overlap between DuPag e and Will Counties: The fact that a health need was identified in both the DuPage and Wil l County CHNAs as an area of opportunity * Magnitude: the size of the population affected and the degree of variance from benchmarks and trends * Impact/Seriousness: the degree to which the issue affects or exacerbates other quality of life and health-related issues * F easibility: the ability for EEH to reasonably impact the issue given available resources * Consequences of inaction: the risk of not addressing the problem at the earliest opportun ity The following priorities were adopted for the FY2020-2022 EEH community health impleme ntation plan. * Chronic Disease (Obesity/Diabetes, Cancer, Heart Disease/Stroke) * Behavio ral Health (Mental Health, Substance Use, Adolescent Depression and Suicide) * Access to P rimary Care and Community Resources (including provider supply and availability, financial access and health literacy around how to seek care) PRIORITY #1a - Chronic Disease (Obesi ty [children/adults]/Diabetes) PROBLEM STATEMENT: For both children and adults, obesity is a prevalent problem within DuPage and Will counties. It can be indicative of underlying s ocial determinants of health and an unhealthy lifestyle, which increases the risk of chron ic disease. Between both counties, approximately 400,000 individuals above the age of 20 y ears were categorized as obese (BMI > 30). In addition, 14.8% (137.496) of children/adoles cents in DuPage County are obese and 13% (90,046) of 6th graders in Will County are obese. Strategy #1: Community engagement around the prevention and management of childhood obesi ty * Research best practices * Partner with community organizations, grocery stores, schoo ls and others to establish a regional initiative to address childhood obesity, including n utrition and exercise programming and referral relationship development Strategy #2: Expan d treatment options for weight management * Expand Edward and Elmhurst weight management p rogramming (weight management clinics, bariatrics, and related educational support). Expan d eligibility beyond morbidly obese adults to promote earlier intervention. * Continue to grow EEH System AWARE programs focused on child and adult obesity, nutrition, diabetes. The age-adjusted death rate due to breast cancer is 21.6/100,000 population in DuPage County. The age-adjusted cancer incidence rate is 492.5/100,000 population in Will County. Strategy #1: Increase rates of screening for breast, colorectal and lung cancer * Increase cancer screening rates through EHV /PPD primary care providers (breast, colorectal) * Continue CT lung screening program * Promote EEH System LungAware, ColonAware and BreastAware and continue targeted screening reminder programs Strategy #2: Reduce smoking and vaping (cancer/cardiovascular risk factors) * Research anti-vaping initiatives and partner with school system on education/prevention initiative * Sponsor community smoking cessation programs PRIORITY #1c - Chronic Disease (Heart Disease/Stroke) PROBLEM STATEMENT: Of all the chronic diseases researched within the community, the following continue to elevate to the top as most pressing: heart disease/ stroke, cancer and diabetes. The age-adjusted death rate due to coronary heart disease is 68.3/100,000 in DuPage County. The coronary heart disease mortality rate is 107.7/100,000 in Will County. During the survey period, over 185,000 community members indicated that their mental health was 'not good' for at least the prior 8 days. Strategy #1: Increase behavioral health awareness and education/decrease stigma * Expand Mental Health First Aid beyond Naperville into communities throughout the EEH service area * Adopt a new curriculum around Mental Health First aid, specific to adolescents * Expand local community partnerships as a vehicle for continued education and awareness * Continue to support area school districts in prevention, education and identification of students using the Signs o

PRIORITY #3 - Access to Care & Community Resources PROBLE M STATEMENT: People who lack a regular source of health care may not receive the proper me dical services when they need them, which can lead to missed and untreated diagnosis along with adverse health outcomes. In DuPage and Will counties, approximately 15-17% of adults do not have a usual provider or source of health care. That is equivalent to roughly 257, 106 individuals within these counties. Further, traditionally health systems focus the maj ority of their resources on providing clinical care; however, evidence demonstrates that u nderlying social determinants of health, individual health behaviors, and the physical env ironment play an influential role in the overall health status of communities. Strategy #1 : Enhance health literacy around accessing the most appropriate site of care * Provide pub lic education about availability of EEH network of cost effective ambulatory access points (alternative to ED) and navigation support through Immediate Care Nurse Triage Program * Implement virtual triage program to provide digital guidance on the most appropriate site of care Strategy #2: Reduce Financial Barriers to Access * Promote and offer financial ass istance policy to eligible patients Identify and assist uninsured patients in ED and other care settings in obtaining coverage through counseling and related assistance, including Medicaid Application initiative * Partner with DuPage Health Coalition, Will County MAPP c ollaborative, Impact DuPage to ensure access for low income residents * Advocacy to suppor t adequate Medicaid funding to ensure access to physician and hospital services for low in come patients Strategy #3: Increase Access to Primary Care & Specialists * Expand EEH prim ary care provider base, including physicians and Advanced Practice Clinicians (APCs) * Add ress gaps in physician specialty coverage through annual physician needs assessments/recru itment plans * Expand and grow Immediate Care, walk-in/retail clinic sites and connect new patients with PCPs Strategy #4: Increase connections between EEH patients and community o rganizations addressing social determinants of health * Evaluate process and technology pl atform for screening patients with social determinant needs and connecting to appropriate community resources * Evaluate opportunities to enhance support to local food banks Based on prioritization criteria and internal consensus around where EEH can play a unique and s ignificant role and therefore drive greatest impact, summarized below is a list of Will an d DuPage County-identified health priorities that will not be directly addressed by the FY 2020-2022 EEH Implementation Strategy. The Collaborative is comprised of representatives from nearby housing organizations, business leaders, and elected officials. As a newly formed organization in 2018, the Collaborative is beginning with a specific scope of identifying, developing, an d serving one housing location in DuPage. EEH will participate in this Collaborative. Agin g Population This was identified within DuPage county during the Forces of Change Assessme nt. As the population ages, different social and clinical needs will need to be addressed. EEH routinely provides programming and services responsive to this demographic segment. S pecific initiatives around screening for social determinants of health for the senior popu lation will be incorporated into the EEH implementation strategy. Inclusivity This was ide ntified within DuPage county and is indirectly addressed and incorporated in Programs thro ughout EEH. Specifically, EEH established a diversity and inclusion council in 2016 and ha s implemented several initiatives to improve cultural sensitivity within the organization and promote the use of race, ethnicity and language data to eliminate disparities in healt h care. Technology Access and Overuse This was identified within DuPage County during the Forces of Change Assessment. While no quantitative data exists, community members perceive this to be a problem. The scope and problem statement need to be further refined before d iscussion on ways to address the issue. Transportation This was identified within both cou nties. While no quantitative data was reviewed, there is consensus around lack of a true t ransportation system and limited public transit routes. Support from EEH will be provided through collaborative partnerships and involvement with community coalitions. Further, as EEH aims to address transportation barriers for patients, the System already provides tran sportation vouchers to low income individuals on an as-needed basis, as well as a discount ed ride services in the Elmhurst region. Workforce Development This was identified within DuPage County based on the perception that unemployment rates are misleading and that more people are unemployed or not employed in the jobs they want or were trained for. As one o f the largest employers in the region, EEH is a major provider of jobs and attracts a dive rse workforce. Continued growth of the organization and active involvement in regional eco nomic development coalitions will ensure an ongoing positive contribution. Animal/Vector B orne Disease This was identified within Will County as the incidence of Lyme disease, Rabi es and West Niles has increased. While not directly influencing incidence, EEH provides he alth care services for those affected from these diseases and advises about prevention thr ough community education effor

Specifically, ethnicity in Will County illustrated a key discr epancy in education completion, as 34% of the Hispanic/Latino population had less than a h igh school diploma, compared to 6% of the non-Hispanic/Latino population. As EEH's core co mpetency is health care and not education, support will be provided through community part nerships and collaboration around job training and other initiatives where appropriate. In jury/Violence As violence increasingly impacts EEH and its staff, it is already focused on mitigating strategies focused on its employees. In addition, continued focus on mental he alth and substance abuse will hopefully have an indirect positive impact on this trend. Ad ditional resources already provided by EEH include: emergency department case managers whi ch provide follow-up care to victims of abuse; access to a pediatric care center which pro vides expanded services for the care of sexually abused children; child protection task fo rce which encompasses a multidisciplinary team to provide oversight of all child abuse cas es identified and reported. EEH remains committed to the provision of these services. Mate rnal/Child Health This was identified within Will County during the CHNA assessment proces s. While not directly prioritized in the FY2020-2022 EEH implementation strategy, the Syst em already plays a major role in Maternal and Child Health through its obstetrics and pedi atric service lines, which provide a full range of preventive and treatment services for w omen and children in the region. Oral Health This was identified within Will County, which established an initiative to collaborate with health systems that provide dental care to develop a comprehensive oral health improvement plan. As EEH does not provide dental care services, this is out of scope and will be addressed at the county level.

Return Reference	Explanation
Form 990, Part III, Line 4 COVID-19	On March 11, 2020, the World Health Organization designated COVID-19 as a global pandemic. Patient activity and related revenues for most hospital services were significantly impacted starting in mid-March as various policies were implemented by Federal, state and local governments in response to the COVID-19 pandemic that caused many people to remain at home and forced the closure of or limitations on certain businesses, as well as suspended elective surgical procedures and other nonessential healthcare services. In response to the pandemic, the hospital took several precautionary steps to enhance operational and financial flexibility to address the risks posed by the pandemic, including: implementing cost reduction initiatives; reducing certain planned projects and capital expenditures; executing revolving lines of credit at the corporate level; and taking advantage of various Federal stimulus and other relief opportunities available. The hospital's operating results for the fiscal year ended June 30, 2021 were significantly negatively impacted by the pandemic, net of relief funds recognized.

Form 990, Part VI, Line 12c Conflict of interest policy	EDWARD-ELMHURST HEALTHCARE, ON BEHALF OF ITSELF AND ALL AFFILIATES, MONITORS AND ENFORCES COMPLIANCE WITH ITS CONFLICT OF INTEREST POLICY THROUGH ANNUAL REPORTING, AND ONGOING EDUCATION. Each year, Edward-Elmhurst Healthcare conducts an annual conflict of interest review. This process involves requiring all trustees, officers, key employees, employed physicians, certain other physicians, and management level employees to complete an electronic conflict of interest questionnaire. The System Director of Internal Audit and Corporate Compliance facilitates the completion of a questionnaire by all required individuals, and if no questionnaire is completed, the matter is reported to the individual's supervisor up to and including the Board of Trustees. Disclosures made on the questionnaire are evaluated by a conflict of interest workgroup comprised of the System Director of Internal Audit and Corporate Compliance, the System Executive Vice President and Chief Financial Officer, the General Counsel, and the Deputy General Counsel. Disclosures made by trustees, officers and key employees are evaluated by the Executive Committee of the Board of Trustees or its designee. The evaluations may result in actions being taken up to and including the development of a management plan accepted by the individual making the disclosure or termination of the disclosed relationship or conflict. In cases where an actual or potential conflict of interest is identified, the conflicted individual is educated about how they should raise this issue if they are ever in a position where their conflict may be implicated. Conflicted individuals must recuse themselves from voting, but, at the discretion of the Board, may be permitted to participate in discussion about matters in which they have an actual or apparent conflict. In addition to this annual reporting, all individuals noted above are advised that, pursuant to the conflicts policy, they are required to report to the system director of internal audit and corporate compliance any actual or potential conflicts of interest as they may arise throughout the course of the year.

Form 990, Part VI, Line 15a Process to establish compensation of top management official	Executive compensation, including the CEO and all officers of Edward-Elmhurst Healthcare ("Senior Management") is managed by the Edward-Elmhurst Healthcare ("EEH") Board of Trustees ("Board"), on behalf of EEH and all of its affiliates. On an annual basis, the Board reviews compensation arrangements, including the compensation award for the Edward Hospital President for the coming year. The Board conducts the review in a manner that will qualify for the rebuttable presumption of reasonableness under the Intermediate Sanction Rules of Section 4958 of the Internal Revenue Code. To that end: - The CEO and all other members of Senior Management may participate in this review process and be present at meetings of the Board only if and to the extent necessary to answer questions and provide other information the Board needs for its analysis, assessment and deliberations, and they must otherwise recuse themselves from Board meetings during Board debate and voting on compensation arrangements. - Any Board member identified as having a conflict shall participate in the process only to the same extent as members of Senior Management. - The Board conducts the review with the assistance of an experienced and independent compensation firm, which summarizes its analysis and findings in writing to the Board. - The Board obtains and relies on current comparable market compensation data from appropriate peer organizations for each compensation component prior to making its determination. Relevant information will include compensation levels paid by similarly situated organizations, both taxable and tax-exempt, for functionally comparable positions; the availability of similar services in the geographic area served by EEH; current compensation survey compiled by an independent firm; and, where applicable, actual written offers from similar organizations competing for the services for the members of Senior Management. - The Board also adequately and promptly documents its decision. The documentation states its intention to qualify for the rebuttable presumption of reasonableness; the specific terms of the compensation arrangement that were approved; the approval date; the names of the individuals present and those who voted; the specific comparability data obtained and relied upon; and an explanation as to why the approved amounts are considered reasonable if the terms of the compensation arrangement differ from the comparability data. In addition, the Board periodically reviews the Executive Compensation Plan, including the philosophy, for (a) compliance with applicable laws and regulations, and (b) alignment with EEH's mission, charitable purposes, goals and strategies. Based on the review, the Board approves any changes in one or more components of the plan or the plan philosophy that the Board considers necessary and appropriate relative to one or both of these criteria. Form 990, Part VI, Line 15a Process to establish compensation of top management official	of EEH Senior Management are compensated with a competitive base salary, along with an incentive plan, which is reflective of EEH's market as determined by a review of independently gathered market compensation survey data. At the time of hire, the salary determination is made by giving consideration to the experience pertinent to the role for which the individual is to be hired, also considered are niche skills or experience the individual brings to the organization. Supply and demand will also play a role in determining the hiring rate of pay. Based on these factors, the EEH Human Resources department, which supports EEH and all of its affiliates, will assign the key employee to an appropriate pay grade, and a rate of pay will be offered within that pay grade. On a periodic basis, the EEH Human Resources Department works with an independent third party compensation consultant to conduct a thorough market review of all positions which are not considered Senior Management. Using a variety of sources, EEH salary ranges are compared to the current market pay grade assignments, and individual rate of pay may change based on the results of this annual market review. In addition, annual merit increases may be awarded based on EEH's budget for the year.
