Name: Winona Health Services Inc

Form 990 (2020)

Form 990, Part III, Line 4a:

Winona Health Services (WHS), a 49-bed hospital, has provided care to its community and services from birth to death for 125 plus years. It is the sole community provider in the Winona, Minnesota area. In fiscal year 2021, WHS had 1,510 admissions, 203 births, 2,744 inpatient and outpatient surgeries, and 11,141 visits to the emergency room. To fulfill its mission of community service, the Corporation provides care to patients and residents who meet certain criteria under its charity care and community benefit policy without charge or at amounts less than its established rates. Because the Corporation does not pursue collection of amounts determined to qualify as charity care, they are not reported as patient and resident service revenue. Charity Care: WHS provides medical care to the community regardless of an individual's ability to pay. The charity care cost based on charges foregone was approximately \$601,383 for FY 2021. In furtherance of its charitable purpose, the Corporation provides a wide variety of benefits to the community. These services and donations account for a measurable portion of the Corporation's costs and serve to promote healthy life styles, community development, health education, and affordable access to care. The Corporation maintains records to identify and monitor the level of community benefit services it provides. Those records include management's estimate of the cost to provide charity care, the cost of services and supplies furnished for community benefit programs and costs in excess of program payments for treating Medical Assistance patients. In addition to community benefit costs, the Corporation provides additional community contributions such as services to Medicare and Medicaid patients below the costs for treatment, other uncompensated care, discounted pricing to the uninsured, and pays taxes and fees. During FY2021, many resources were dedicated to managing the covid 19 pandemic collaboratively within the community. Measures included expansion of virtual visit services, establishing a separate covid testing area, vaccine administration areas, working with local long-term care and congregate care communities to test residents and provide guidance on infection control practices. Numerous preparations and workflow changes were deployed to ensure patient access and safety. Physical facility modifications such as creating negative pressure rooms, monitoring entrances and traffic flows, repurposing of space, were made in response to the pandemic.

Part VI Supplemental Information

Provide the following information.

- 1 Required descriptions.** Provide the descriptions required for Part I, lines 3c, 6a, and 7; Part II and Part III, lines 2, 3, 4, 8 and 9b.
- 2 Needs assessment.** Describe how the organization assesses the health care needs of the communities it serves, in addition to any CHNAs reported in Part V, Section B.
- 3 Patient education of eligibility for assistance.** Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy.
- 4 Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves.
- 5 Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (e.g., open medical staff, community board, use of surplus funds, etc.).
- 6 Affiliated health care system.** If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.
- 7 State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part I, Line 6a:	The community benefit report is included in the annual report and community benefit information is listed in quarterly newsletters, both of which are posted on the Winona Health website: https://www.winonahealth.org/ . Information is also included in the patient waiting rooms.
Part I, Line 7:	Charity care expense was converted to cost on line 7a based on an overall cost-to-charge ratio addressing all patient segments. Unreimbursed Medicaid on line 7b and subsidized health services line 7g was calculated using the costing methods to prepare the cost reports. Line 7e Community health improvement services, line 7f health professions education, and line 7i cash and in-kind donations were actual expenses compiled using the CBISA software.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part II, Community Building Activities:	The Leadership/Development Training for Community Members community building represents when staff go into other businesses/organizations and donate their time/talent for training on things like hands-only CPR, non-violent crisis intervention, etc.
Part III, Line 2:	The corporation determines its estimate of implicit price concessions based on its historical collection experience with each class of patients and residents.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 3:	WHS estimates that 40% of implicit price concession accounts would likely qualify for the Organization's charity care guidelines if the patient would have been identified and followed through on the application process. This percentage is based on historical knowledge of those who were provided applications and those who completed and submitted application to qualify.
Part III, Line 4:	The footnote to the organization's financial statements that describes implicit price concessions is located on page 17 of the attached financial statements.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 8:	WHS provides services to patients under the Medicare program knowing they will not recover all the costs associated with providing these services. Providing these services is essential to these patients and the community and increases their access to healthcare services. Therefore, the entire Medicare shortfall is considered a community benefit. The Organization reported only those allowable costs and Medicare reimbursements reported in the Medicare cost report for the year. Total revenue received from Medicare is the gross reimbursement plus settlement. Both total revenue received from Medicare and the Medicare allowable costs are reported from the Medicare Cost Report. The Medicare Cost Report is completed based on the rules and regulations set forth by Centers for Medicare and Medicaid Services.
Part III, Line 9b:	In keeping with the mission, vision and values of Winona Health Services, our Organization is committed to giving a patient every opportunity to pay their medical debt in full or to make arrangements based on organizational policy. When a patient is in the process of applying for financial assistance, whether charity care or an interest free payment plan, there will be no collection efforts. Collection efforts include phone contacts, letters, patient interviews and filing a judgement against the patient and potential garnishment of wages. After a determination of financial assistance, any personal portion due follows the same collection procedures as other accounts. Accounts will be recalled from collection if an application is completed within 240 days of the date of the first invoice.

Part VI, Line 2:	Winona Health Services (WHS) uses a variety of methods to listen to its customers, and the methodologies vary by customer groups. The development of most major services includes the meeting of a community advisory group to assess operations and plans and provide recommendations to the leadership team. WHS also uses point of care feedback comment cards, focus groups, advisory committees comprised of community individuals, and web and consumer newsletter surveys to capture feedback from patients/residents and community. Immediate feedback is obtained from patients/residents and community through pre- and post-service calls, rounding, and informal surveys. WHS also works with local non-profit organizations gathering feedback from local agencies and their boards to ensure community needs are being met. The entire report is available on the Winona Health website.
Part VI, Line 3:	WHS places pamphlets that contain information about our charity care programs and policies throughout the Organization, including all patient access areas. In addition, information can be found on our statement, website or by calling the WHS business office either locally or toll-free. WHS also has a plain language brochure which explains options for financial assistance, charity care, government program assistance, and our uninsured discount program. In addition, the WHS social services department and/or a contracted patient advocate may meet with in-house or recently discharged patients to go over all the payment options which include charity care, governmental programs, or other alternative payment options. WHS works with the county to help initiate a screening process for applying for governmental programs by offering the patients an opportunity to lock in an effective date for those programs if subsequently found eligible. WHS also is contracted with MNSure and has Certified Application Counselors onsite to assist patients in applying for insurance coverage through the State run exchange.

Form and Line Reference	Explanation
Part VI, Line 4:	WHS defines its primary service area as the zip code of Winona and the immediate surrounding area with a population base of approximately 35,000 residents. Its secondary service area encompasses a 20-mile radius from Winona representing another 12,000 residents. WHS is located between two large, well-known tertiary health care centers, Mayo and Gundersen Lutheran. WHS has focused on fulfilling its community need: a full primary care facility. WHS defines itself as a primary care health system and provides its patients and residents connections to tertiary level services to meet their needs regionally or nationally, as the patient chooses. In 2020, Winona had a median household income of \$60,020 and 11% of persons were below the poverty level. The majority of our patients live in Winona which has a population of over 26,772 people. Approximately 18.1% of our patients are uninsured and/or Medicaid recipients.
Part VI, Line 5:	As a sole community provider, WHS offers emergency and urgent care, primary care for all ages, surgical and specialty care, inpatient care, and senior services. Our Board is comprised of physicians and primarily community members. The Board and medical staff are involved in our strategic planning which focuses on the health of our community members. To meet the needs of our community, the Hospital extends privileges to medical staff that are qualified through licensure in the state of Minnesota. In a normal year, staff actively participate in several on-site and off-site health fairs offering free blood pressure checks, glucose screenings and expertise on health questions, as well as offering free community health talks for community members on certain health topics. Due to the COVID pandemic in 2020 and 2021, much of this activity was curtailed or transitioned to virtual delivery. Winona Health actively participated with other community resources to develop and carry out plans in response to the pandemic, including establishing a separate COVID testing and vaccination site on our campus, and working with area long-term care and congregate care communities to test residents and provide guidance on infection control practices. Excess funds are reinvested and used for patient care and facility upgrades. Additional programs that benefit the community include: Health Professional Training: Winona Health Services works closely with nurse and health professional education programs at Winona State University, St. Mary's University, Viterbo College, and Minnesota State College Southeast. Along with training LPNs and RNs on site, other students going into fields of athletic training, social work, nutrition, lab, radiology, physical therapy, respiratory therapy and health administration are also educated and mentored on site. Students work with staff in the following departments: medical/surgical/pediatric unit, family birth center, intensive care unit, emergency department, lab, radiology, social workers, cardiac rehab, physical and occupational therapy. Preventive Care: WHS encourages preventive care through a number of resources. An online patient portal, MyWinona Health, is a free web-tool that allows patients to have access to their Winona Health Services records anytime, anywhere with an internet connection. Patients can document their health history, access diabetes and asthma management programs, schedule appointments, receive lab test results, and track wellness activities. Winona Health Services offers a number of educational opportunities for the community, from CPR classes to free or low-cost screenings including prostate cancer, cholesterol, depression, skin cancer and mammograms. Community Health Talks provide individuals with educational information on a variety of health topics and are free throughout the year. The Winona Health Services Occupational Health department presents various preventive programs geared toward business leaders and HR professionals. The staff also participates in many community collaborative healthcare events. Employee Health: The Healthy U Program is a health management incentive initiative designed to support and encourage healthy activities for our employees and families. The program reinforces the emphasis on prevention, aiming to improve their health and well-being. Emergency Care: WHS provides 24-hour-a-day, 365-days-per-year emergency care to the community. It employs six full-time physicians and several mid-level providers as the service continues to grow. Winona Health Services has excellent relations with neighboring tertiary facilities and transports patients as needed to La Crosse and Rochester. Community Relations: WHS works with area nonprofit organizations to support health and youth-related activities. Presentations included topics such as stress management, career planning, men and women's health issues, joint pain and surgery, gastroesophageal reflux disease, nutrition, and weight management. Staff members are also involved in several non-profit committees, donating their time to support our community. Community Education: WHS's community education programming includes free or reduced-fee classes on childbirth and parenting, support groups for breastfeeding, cardio-pulmonary resuscitation, diabetes prevention, first aid, and smoking cessation. Staff conduct health screenings at free screenings events at Winona Health and other community health fairs. Winona Health Volunteers offer free healthcare directives educational sessions throughout the year. The Winona Health Community Care Network is a service available to community members who would like help with managing a chronic health condition. Its goal is to support and improve the overall health of individuals who are at high risk for frequent emergency department visits and hospital admissions.

Winona Health Services	Part V, Section B, Line 11: Priority 1: Address and help reverse/prevent the unhealthy behaviors that contribute to obesity/overweight and subsequent chronic disease.Priority 2: Strive for health equity given the current inequitable distribution of social determinants of health.Priority 3: Improve mental health.The COVID-19 pandemic greatly impacted how Winona Health delivers care and engages with the community in different ways.Winona Health continues to be a key leader in the Winona Community HUB (HUB), a community-based care coordination program that leverages community health workers (CHWs) in the field to address the complex economic and social needs of families experiencing barriers to wellbeing. A collaborative of area non-profits and government agencies identified that service provider coordination and communication was a key barrier it could directly impact. After listening to stakeholders, collecting data from primary and secondary sources, and researching national best practices, the HUB emerged as an ideal solution for supporting those experiencing barriers. Core elements of the HUB model include: Find: Identify individuals at greatest risk and provide a comprehensive assessment of health, social, and behavioral health risk factors, Treat: Ensure each identified risk factor is assigned to a specific pathway ensuring that risk factors are addressed with an evidence-based or best practice intervention (e.g., parenting education, housing, food, clothing), and Measure: Completion of each pathway confirms that risk factors have been successfully addressed. Though the HUBs initial focus areas have been on families experiencing food insecurity or mental health challenges, the pandemic brought to light issues of homelessness in the community. Having the HUB in place allowed the CHWs to pivot and provide support to Winona's homeless population at the onset of the pandemic, when community gathering places were shut down and people were required to quarantine. The Winona Community HUB is on track to be the first certified HUB in the state of Minnesota, and a leader in this innovative space.Winona Health creatively looks to support patients in unique and holistic ways. Winona Health piloted, and continues to pilot, a "Food as Medicine" program. This program is being done in partnership with a large health plan and offers patients with diabetes with an A1C greater than or equal to 8 access to free meals, meal kits, and education to improve their outcomes (e.g., A1C, blood pressure, diabetes distress scores). Another pilot under development with a large health plan is the deploying of a program called "Healthy Weight for Life". This program is based on the Medicare Intensive Behavioral Therapy for Obesity (IBT for Obesity) benefit and offers patients who are obese up to 22 visits with a dietitian over the course of a year. This program has a target Spring 2022 start date and is being piloted with a large subset of the Medicaid population in Winona

Winona Health Services	County.In FY 2021,Winona Health began work to develop a Partial Hospitalization Program (P HP). As evidenced in the CHNA, Winona County needs continued investment in mental health r esources. Stable mental health results in stronger families, improved physical outcomes, i ncreased economic productivity, and improved overall thriving and resiliency. A PHP is des igned to provide stabilization services for individuals who would otherwise be served in a n inpatient hospital or emergency room. Patients receive intensive therapy and psychiatry services while returning to their own home each evening. This program is a step down from 24-hour care in a psychiatric hospital setting (inpatient treatment), and can be used to p revent the need for an inpatient hospital stay. Treatment takes place in a small group set ting allowing patients to share experiences and support each other. Patients typically par ticipate in the PHP for two to three weeks, Monday-Friday, for approximately six hours eac h day. While in the program patients work with psychiatric providers to ensure medications are producing the intended therapeutic impact and receive intensive group and individual therapy from licensed mental health clinicians to address issues identified on the patient 's individualized treatment plan. Additionally, participants develop an after-care plan de signed to connect the patient with needed care and resources to maintain stability followi ng from the program. Having a PHP in Winona ensures community members receive care close t o home and provides law enforcement and other community agencies a concrete and comprehens ive treatment option to refer those in need. PHPs have proven results in reducing psychiat ric hospital readmissions by filling the gap between traditional outpatient mental health services and inpatient hospital care. Winona Health is targeting an opening date of Fall 2 022.In addition to the above activities, Winona Health has also made a significant investm ent in understanding and positively impacting health equity. Winona Health has partnered w ith a regional leader in diversity, equity, and inclusion, to expand intercultural capacit y of its employees. In addition to the comprehensive training, Winona Health has expanded the social determinant of health screening across the organization and incorporated this i nformation into the electronic medical record. It is important to mention that once a soci al determinant of health is identified, and if the patient expresses a willingness to rece ive support, he/she/they are referred to a social worker, and then potentially connected i nto the Winona Community HUB if they have more intensive needs. This level of screening an d systemization ensures the community's most complex needs are addressed in an equitable, unduplicated and meaningful way.Of the three priority areas identified in the CHNA, progre ss has been made on all areas to put programs and structures in place to shift towards imp rovements. These large areas o

Similarly, the COVID-19 pandemic greatly impact ed rates of mental health and preliminary data indicates this area of concern has worsened due to the volatility of the last year. Work will continue in 2022 towards the implementa tion of the PHP discussed above to provide a more acute, comprehensive and timely mental h ealth resources to our community. Similarly, the other two areas of "impacting unhealthy be haviors that contribute to obesity/overweight and subsequent chronic disease and a movemen t towards health equity given the inequitable distribution of social determinants of healt h still have much needed work.
